DETAILED ACTION

Allowable Subject Matter

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the claimed invention is the inclusion, among other things, of the bias section (of claims 1-10) having first and second operational modes which are mutually exclusive, wherein in the first operational mode, the bias section forces the resonant tunneling device (RTD) to operate within the first region, and wherein in the second operational mode the bias section permits the RTD to operate in either of the second and third regions. For claims 11-14, the prior of record also fails to teach or suggest an associated method with the quantizer circuit of claims 1-10 as recited. Therefore, claims 1-14 are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
